Examinations

Fair

They were close to the study guides which was nice because there was a lot of information we went over.

The midterm was a little long but the instructor explained all the material that was going to be on the test very well.

Exams were very difficult for me, but she gave a good review, just a hard concept.

I believe this teacher was very fair! She is awesome.

Course content

Great information and the delivery is well done.

I felt that a lot of the material was over my head. I didnt understand most of it but I learned some new things.

Not very interesting to me!

The course included a partner presentation over a paper, and she will help you on it as much as you need! Also a midterm and final. At this point I have only taken the midterm, but it was very much like the review so if you went to review session and used notes you would do great!

Instructor

She is awesome! I love her no nonsense approach. She gets you right into the heart of the discussion. Very refreshing.

She is really nice, upbeat and helpful.

The professor is great! I learned a lot from her and the course.

Awesome instructor, very interesting and puts in a tons of effort into her teaching. Shes very available and easy to talk to.

She is AWESOME, she has a great personality.

Course structure

In Classroom is best for this.

I drifted off a lot in the lectures because the material wasnt something I was interested in/seemed over my head.

It was structured very well, and very organized.

Student's self-assessment

I have progressed fairly well. I enjoy this a great deal.

I think I did well. Im not sure if I fully understood everything that was taught but I tried my hardest.

I believe I have done well and learned alot more than I thought I would.
