2. Steffi taught this class very well. She did an excellent job not reading power points ~~or~~ word for word, but explained each thought in different wordings while speaking to the class. She was very prompt in grading and returning papers. Steffi was very knowledgeable of the content and supported information w/ youtube research videos and studies. Her methods of making linguistics and SLA interesting convinced me to change my major from General Studies w/ a field in Linguistics. Great Job! ~~5~~★ at RateMyProfessor.com!

2. At the beginning of the semester I was not really looking forward to taking this class because it was a little bit outside of my scope of interest, but now by the end, I sincerely regret that I felt that way. This class was very engaging, with the combination of lectures and activities, and very useful in building both my teaching and language skills. Fair grading system too. (I love how attendance is $\frac{1}{4}$ of the grade!)
