

Steffi is the most intelligent professor I have ever had. I am so thankful she has come to UNT. I have taken as many of her classes as I can because they are so thought provoking and fast paced. Please give her more money so she will stay.

Crystals

Very fun teacher, brings great energy & makes everything
interesting

1. Linguistics

2. The instructor was overall pretty good. Everything was returned the next class. The only problem was that if you read and understood the assigned text before class, class itself contained little new information.

Stefi is very knowledgeable, cheerful, and pleasant.
I do think that she is a great professor.
My advice, however, would be a move away
from power-point and toward more open conversation
and lecture. I really don't like the powerpoints.
Get rid of those. Stefi, however, is great.

Major 'liar' masters

Steffi is awesome.

Always organized, always on time.

Very helpful to problems.

She has a staggering
intellect.

Linguistics

Dr. Wulff performs nearly flawlessly as an instructor, making this an extremely difficult task. If I had to critique her I don't think I could recall an example that wouldn't be trivial.

I enjoyed this class. I wish we'd looked a little more at cognitive
behavioristics, but I understand why we didn't given the level and
pace of the class. I always enjoy Dr. Wulff's teaching.

1. MA in ESL

2. Dr. Wulff is a very organized, punctual, professor. She is extremely knowledgeable on the subject & very insightful on how to explain each idea to a variety of students.

Literature

was very helpful, instructive, and organized as a professor.

She was one of the most prepared & structured professors I've ever had.

1. MAJOR: ESL

2. EXCELLENT INSTRUCTOR KNOWLEDGEABLE WELL-PREPARED

I really enjoyed this class, and I think Dr. Wolff is a great teacher. I would have liked to learn more about the actual research techniques and experimental methods used in the field. It did seem like an undergraduate survey course at times. However, in general, I was very satisfied with the course.

MA Linguistics

Very competent and knowledgeable

But taught a lot on the last day -
when it is Dead Week

1. Linguistics

2. Steffi is an excellent professor. She is very knowledgeable & always leads intriguing discussion in class. She is excellent at keeping students engaged.

TESOL

Steffi is obviously very knowledgeable in the subject, and very current with her information, so we know the information presented is the best available. Great organization and very clear in the presentation of materials. I enjoyed this class!

Steffe, I thoroughly enjoyed this course. It is extremely stimulating
and condense. I enjoy your manner of making it a
relaxed atmosphere and generously suggesting all comments
that are offered - even when ^{some of} they are minimal
approximate. I have learned a lot and hopefully
can process it to a ~~more~~ deeper level by
future reading (after my dissertation)!!

Thank - Lilly
